

Flexible Spending Accounts ~ Eligible Expense Guide
Healthcare & Dependent Care

Eligible Expense Guide

This guide will provide a detailed listing of a healthcare and dependent care FSA spending account. It lists general expenses allowed by the Internal Revenue Service (IRS), however, it is not an exhaustive list and if you have a question regarding an expense not listed, please call the RPG Consultants FSA Department at **(212) 947-4800 ext. 215**.

How to use this guide

1. **Healthcare & Dependent Care:** Sections contain an easy-to-read chart listing common expenses.
2. **Expense Type:** Expenses are displayed alphabetically within their category. Examples of the expense are listed beneath the expense.
3. **Eligible for Reimbursement:** This guide will state if the expense is generally reimbursable from your FSA. However, there are certain exceptions or requirements for many expenses. It is important that you read the Special Exceptions or Requirement related to the expense.
4. **Special Exceptions or Requirements:** Follow the instructions provided to ensure your particular expense is eligible.

Tip: To quickly search for an expense, click the search icon and type in the item you are looking for. Example: You're searching for glasses, just type in 'eye glasses.'

General rules for eligible expenses

In order for RPG Consultants to consider an expense eligible, the expense must:

- Be allowed by the IRS;
- Be allowed by your employer's FSA plan;
- Be incurred during your employer's plan year or during the 2 ½ month extension period, if allowed by your employer's plan;
- Be for you or a qualified dependent
- Not be reimbursed through another plan
- Not be used as a dependent day care credit or healthcare deduction on your personal tax return.

To obtain reimbursement for an eligible healthcare or dependent care expense, you must complete a reimbursement request, which can be found on our web site www.rpgny.com and must be accompanied by a detailed receipt or other supporting documentation.

Definition of a qualifying dependent

Healthcare and dependent care expenses must be for you or a qualified dependent in order to be eligible for your FSA.

The definition of "dependent." Please note:

Generally speaking, a **qualifying child** must:

- Reside with you for more than half the year¹;
- Be younger than 27 years of age
- Not provide over half of his/her own support.

A dependent who does not satisfy the requirements for a qualifying child may meet the requirements for a qualifying relative. A **qualifying relative** is an eligible individual if:

- You provide more than half of the individual's support;
- The individual is not a qualifying child of you or any other taxpayer.

Please note that any questions regarding the status of an individual as either a qualifying child or a qualifying relative must be discussed with a qualified tax advisor in conjunction with the provisions of your employer's plan.

Healthcare Expenses

Eligible healthcare expenses generally include amounts paid for the diagnosis, care, mitigation, treatment, or prevention of disease or illness and for treatments affecting any part or function of the body. Any expense recommended for the bettering of an individual's general health or wellbeing is not eligible (example: vitamins/supplements).

Eligible expenses must be for you, your spouse, children, and any other person who is a qualified dependent as defined by the IRS.

ATTENTION!

Doctor's Statement: Certain expenses will require a doctor's statement indicating the specific medical disorder, the specific treatment needed, and how this treatment will alleviate the medical condition. For your convenience, RPG Consultants has created a doctor's statement form that is printed at the end of this document.

OTC Guide

The Internal Revenue Service (IRS) allows reimbursement of some over-the-counter (OTC) medicines and products from a Healthcare FSA when the OTC product is used for medical purposes. Below is a description of the three IRS-defined categories for OTC: eligible, dual purpose, and ineligible items, followed by product examples for each category.

Submitting healthcare OTC reimbursement requests

Reimbursement for any expense must follow the existing rules regarding Healthcare FSAs, with some minor adjustments made to accommodate receipts and appropriate use. The expense must:

- Be incurred during your period of coverage.
- Be for you or an eligible dependent.
- Not be reimbursed through another plan.
- Be accompanied by a detailed receipt. A detailed receipt must provide the name of the medicine or product, the date, and the amount paid. If your supermarket or pharmacy receipt does not include this information, you will need to have this information documented by your supermarket or pharmacy.
- Be reasonable in quantity.

Eligible OTC Expenses

<p>Eligible items include medicines or products that alleviate or treat injuries or illness for you and your dependents. These drugs and products are NOT cosmetic in nature, or merely beneficial to your general health. The products listed here are examples, and do NOT constitute an endorsement or an exhaustive listing of reimbursable OTC products. You do not need to purchase national-brand products. You can purchase generic, store-brand products.</p> <p>ALL ITEMS IN BOLD NOW REQUIRE A DOCTOR'S NOTE.</p>	Examples of each

Dependent Care Expenses

Most work-related expenses incurred for the care of a qualified person will be eligible for reimbursement through a dependent care FSA. Your expenses must be for the well-being and protection of a qualifying dependent while you and your spouse, if married, work or look for employment.

Definition of 'work-related'

The following employment rules apply to dependent care FSAs:

- You must be employed full-time or part-time, depending on your employer's plan, or actively looking for work;
- If married, both you and your spouse must work unless your spouse is looking for work, is a full-time student or is disabled;
- Unpaid volunteer or volunteer work for a nominal salary does *not* qualify as employment.

Full-time Student Definition: You are a full-time student if you are enrolled at and attend a school for the number of hours or classes that the school considers full-time. You must have been a student for some part of each of five calendar months during the year, but the months do not have to have been consecutive. The term "school" does not include on-the-job training courses, correspondence schools, or Internet courses/schools.

Children of Divorced or Separated Parents: A child can be the qualifying individual of only one parent in one year. Dependent care expenses for the custodial parent may be employment related expenses if the child: (1) receives over one-half of his/her support from one or both parents; and (2) is in the custody of one or both parents for more than one-half of the calendar year.

Who Qualifies To Receive Dependent Care?

In general, and subject to the rules of your employer's plan, the following rules apply to a qualifying person:

- The individual must be your [qualifying dependent](#) (child or relative) as defined by the IRS.
- If the individual is your child, he or she must be **under the age of 13** unless physically or mentally unable to care for him- or herself.
- If the individual is your spouse, he or she must be physically or mentally unable to care for him- or herself.

Individuals not able to dress, clean, or feed themselves, or who require constant attention to prevent injury to themselves or others because of physical or mental problems are considered unable to care for themselves.

Please note: Simply being unable to work, perform normal household functions, or care for minor children does not mean an individual is incapable of caring for him- or herself.

Who Qualifies To Provide Dependent Care?

Dependent care can be provided by:

- Any individual **not** claimed as a tax dependent by you or your spouse.
- Your child who is at least 19 years of age by the end of the plan year.
- A child, adult or elder care center. If the center serves seven or more children or adults, the center must comply with all applicable state and local regulations.

The care provider must have a Social Security Number, Employer Identification Number (EIN), Individual Taxpayer Identification Number (ITIN) or a Taxpayer Identification Number (TIN).

Dependent Care Expense	Eligible For Reimbursement	Special Exceptions or Requirements
Activity Fees from Care Provider <ul style="list-style-type: none"> • Field trips • Dancing or swimming lessons • Art supplies • Entertainment • Clothing 	No	Fees paid to a dependent care center for special activities are NOT eligible expenses, unless these fees are incidental to, and cannot be separated from, the cost of caring for a dependent
After-School Programs	Yes	
Before-School Programs	Yes	
Care Provided at a Provider's Home	Yes	
Care Provided by a Relative	Yes	The following are NOT eligible expenses: <ul style="list-style-type: none"> • Payments made to a dependent for whom you or your spouse claim as an tax exemption, or • Payments made to your child who was under the age of 19 at the end of the year
Care Provided in Your Home	Yes	
Day Camps	Yes	Day camps can include theme-based camps, such as soccer camp or computer camp and may be an employment-related expense if incurred for the care of a qualifying individual which enables the employee to be gainfully employed
Dependent Care Centers <ul style="list-style-type: none"> • Child day care • Adult or elder care facility 	Yes	If the center serves seven or more children or adults, the center must comply with all applicable state and local regulations
Nursery Schools	Yes	Nursery school fees, including pre-Kindergarten, are eligible expenses even if educational services are provided.
Overnight Camp	No	A pro-rated portion for the 'daytime' care provided by an overnight camp is NOT an eligible expense

Overnight Care	Maybe	Maybe Overnight dependent care is eligible if you are required to travel overnight for work-related reasons, and your spouse, if married, is unable to be home with the child
Application Fees, Agency Fees, Deposits	Yes	Expenses that relate to, but are not directly for, the care of a qualifying individual, such as application fees, agency fees (e.g., for Au Pairs), and deposits, may be for the care of a qualifying individual and may be employment-related expenses if the taxpayer is required to pay the expenses to obtain the related care. The expense is incurred when the
participant is provided with the care that gives rise to the expenses, and not when the participant is formally billed or charged for or pays for the care		
Tuition for Kindergarten or Higher	No	Tuition fees for kindergarten or higher are NOT eligible expenses. If dependent care is provided as part of the tuition (for example, for before and after school care), only the cost of caring for the child is eligible. A separation must be made between the fees for child care and educational services.

Doctor's Statement Form for Healthcare Expense

The Internal Revenue Service requires a doctor's statement be provided for certain healthcare expenses in order to be reimbursed from your healthcare Flexible Spending Account (FSA). The doctor's statement must indicate the specific medical disorder, the specific treatment needed, and how this treatment will alleviate the medical condition. RPG Consultants has developed the following form to assist you and your healthcare provider in providing the information we need in order to process your reimbursement request. Your provider can also write a letter on his or her letterhead, as long as the letter includes all the information on this form.

For fast and accurate processing of your reimbursement request, please make sure to include this doctor's statement form or your provider's letter along with an itemized receipt or other documentation.
